

# ZHIYU XUE

**Dear DAIMLER,**

I am an interaction design student at California College of the Arts. Ana Sofia Pena Curreya introduced me to Daimler and I was very interested in the culture of Daimler and the problems that Daimler addressed to solve. Currently, I work with the International Student Affairs Office at my school as an International Student Ambassador; working with cultural diversity comes naturally to me. I really admire the accident-prevention system in development - I feel it is a profitable venture that can do nothing but better users' lives.

CCA focuses on teaching me user experience and user research, so I am familiar with UX design processes such as interviewing users, making journey maps and ideating for the future state. I am good at storyboarding with constructed personas.

If Daimler accepts me as part of the internship program, I would love to push myself to help Daimler become more successful and I will be open to any feedback. I love direct feedback that points out what I need to work on in order to push myself further.

Zhiyu Xue
